Website secured for credit card processing.

MAIL ORDERS OR PAYMENTS TO:
LSI International
640 Miami Avenue
Kansas City, KS 66105

When placing an order, please have the following information available:
- Your Customer Name
- Office Phone Number
- Product Numbers
- Customer Number
- Billing & Shipping Address
- Quantities & Descriptions

PRICING
- Prices in this catalog are your professional whole sale price and are subject to change without notice.
- Prices DO NOT INCLUDE shipping charges or applicable taxes.

PAYMENT OPTIONS
- Net 30 day terms upon arrival.
- Credit Card: Visa, Mastercard, Discover, American Express
- Collect on Delivery (C.O.D.): UPS/FedEx add an additional $11.00 charge to your shipping costs.
- Check by Fax or Mail: Product ships after payment is received.
- $35.00 returned check charge.
- Advantage of credit card or prepayment: Avoid C.O.D. charges.

LEASING AND FINANCING
LSI offers many methods of financing your equipment purchases.
- Credit Card
- Finance Companies
- Bank Loans
- Conventional Lease

Ask our sales team about your equipment leasing and financing options.

SHIPPING AND DELIVERY
- Most items are in-stock and will ship within 24 business hours.
- Actual published shipping charges (no upcharge!) will be added to your invoice.
- Orders drop shipped from manufacturers in some instances may be subject to additional charges.

LOST OR DAMAGED MERCHANDISE
Before signing acceptance of delivery:
- Check all cartons for visible damage.
- Have driver note any damaged cartons.

After accepting delivery:
- Check contents of order against the packing slip accompanying the shipment.
- Examine for concealed damage. If damage exists, keep all packing materials and notify LSI immediately. IF ANY DISCREPENCIES EXIST: Contact our customer service department within 7 days of delivery. Call 1-800-832-0053.

RETURNS
- Call for prior return authorization. Unauthorized returns may not be credited.
- LSI assumes no responsibility for merchandise lost or damaged during a return.
- Merchandise will be inspected and evaluated upon receipt and credit will be issued accordingly.
- Restocking charges may apply to returned merchandise due to condition or original invoice date.

SPECIAL ORDERS
Inquiries are invited regarding special requests for items not in our catalog. SALES ARE FINAL AND CANNOT BE RETURNED FOR CREDIT OR EXCHANGE.

Dear LSI friend,
It’s our pleasure to provide you with this LSI International Best-Sellers Catalog. Its item selection represents the “votes” cast by the purchases of thousands of your peers. It’s designed to be the time-saving go-to resource for everyday items you need for your practice. Need something not shown? Our Customer Service Team is eager to serve. Additionally, www.lsiinternational.com provides easy, fast online ordering plus a terrific online catalog.

LSI International is known for and is committed to the highest level of service in the field. Virtually all of these items are stocked so you can receive them just a day or two after you place your order with LSI! We look forward to serving you and saving you money!

Sincerely,

Steven E. Cole, President

BIOSTIM®INF

The BioStim®INF has three pre-programmed sweeps; 1-10 Hz, used for Edema Reduction, 80-150 Hz used for Pain Relief and 1-150 Hz for total treatment to allow for easy set up. The Device offers bipolar stimulation using two electrodes where the interferential stimulation is already “mixed” or Full Interferential stimulation with the use of four electrodes. Operates from four AA batteries or the BioStim® Wall Adapter. Size: 3-1/4” x 2-1/4” x 1-5/8”, Weight: 8 oz, Carrier Frequency: 4000 Hz, fixed. Output Current: 0-66 milliamps peak to peak with 500 ohm load.

Cat# BSKBSI

LSI VALUE EMS-200 UNIT

This Electronic Muscle Stimulator features 2 channels/4 pads, 300 micro second pulse width, adjustable contraction/rest times, adjustable ramp times.

Accessories include: Leadwires, self-adhesive electrodes, 9V battery, manual and zip carrying case.

Cat# BSHRSEMS

LSI TENS UNIT

Two channel, 4 pad unit features 3 modes of operation: normal, burst and modulated. Adjustable frequency 0-150 Hz and adjustable pulse width 30-360 uSec. Active channel LED indicators, 30 min timer and low battery indicator.

Accessories include: Battery, lead wires, electrodes and hardshell carrying case. 1 year manufacturer’s warranty.

Cat# UPMU73495

DYNAGEL ULTRASOUND GEL

DynaGel medium viscosity ultrasound gel is clear. Popular for use in therapeutic ultrasound, this water soluble formula contains no salt, alcohol, fragrance or dye. Excellent medium for therapy, it spreads evenly without running or drying. Hypoallergenic and bacteriostatic. Sold in 5 liter containers. Includes empty 8 oz. applicator bottle.

Cat# DYSLTRGEL

DIGITAL TENS UNIT

This Transcutaneous Electrical Nerve Stimulator (TENS) has a digital control panel for easy operation, synchronized output settings and alternating output setting, clear usage display for both A and B channel outputs and a larger control knob for easier control. This stimulator also includes an adjustable 90 minute timer. The TENS Unit has 5 different pulse settings: Burst, MRW, SD, Bi-Pulse and Normal.

Accessories include: Carrying case, 9V battery, lead wires, self-adhesive electrodes, and instruction manual.

Cat# TS1211

DIGITAL EMS UNIT

This Electronic Muscle Stimulator (EMS), has a digital control panel for easy operation, synchronized output and alternating settings, clear usage display for both A and B channel output and a larger control knob for easier control. This stimulator also includes an adjustable 90 minute timer. The EMS Unit has 3 different pulse settings: Synchronous(S), Constant(C), and Alternating(A).

Accessories include: Carrying case, 9V battery, lead wires, self-adhesive electrodes, and instruction manual.

Cat# LK85-22LSI
Many chiropractors received their electrotherapy training on this LSI System IV unit. Thousands use them in their practices everyday and have for five, ten years or more.

The LSI International System IV is the leader in ease-of-use, functionality, reliability, and value in interferential muscle stimulation. Get a reliable System IV unit generating real cash for your practice TODAY!

2 Year Warranty
Free Bonus Product Included - $124 in LSI Silver Tab Electrodes
Very Quick Payback - The Unit Can Pay for Itself in Less than Four Weeks
Tax Deductible - Can Save Hundreds of Dollars (Consult Your Tax Advisor)

Stimulate Your Electrotherapy Profits!

LSI SYSTEM II
Two channel (four electrodes) version of our popular System IV.

LSI INTERFERENTIAL THERAPY
For almost 2 decades, LSI has provided the health-care industry with the most reliable, user-friendly interferential units available. LSI also includes a 2 YEAR WARRANTY for the LSI System II and IV. These interferrals are built to the highest quality standards. Reliable, User-Friendly and a 2 Year Warranty! 90 Day Warranty on accessories.
Value-Leading Silver Coated Carbon Tens/Stim Electrodes!

- FOAM BACKED / SILVER COATED CARBON
- GREAT FOR ALL TENS AND STIM APPLICATIONS
- GREAT ADHESION
- EVEN CURRENT DISPERSION
- 4 PER PACK

We have created this unique line of electrodes based upon your request for value-priced, high quality electrodes that can be left on during hot or cold therapy to allow electrotherapy immediately thereafter. Compare these electrodes against all others! These feature superb current dispersion and reliable construction at an untouchable price!

LSI MULTI-USE ELECTRODES

High quality at an extremely low price. These foam backed self adhesive electrodes are reusable for multiple applications and highly conductive. Low profile with pigtail connection.

LSI SILVER TAB ELECTRODES

Saves you money! Simple to use, intuitive lift tab for removal prevents accidental pulling on the lead wire, extending the life of the electrode.

Patient Comfort! Incorporates a silver ink/carbon film conductive layer, which provides greater efficacy and patient comfort.

Long-Lasting! High quality hydrogel provides excellent adhesion performance.

Fits most leads! Soft molded, high strength connection socket easily expands to allow over-sized mating pins.

Convenient! Double-sided liner allows electrodes to be returned to either side of the liner in between uses.

LSI Silver Tab Electrode - 3D Current Distribution Map

The LSI Silver Tab Electrode has a very evenly distributed current and minimal current density "peaks" compared to lower quality electrodes. This highly conductive electrode delivers a more comfortable and effective treatment area for your patients by providing uniform current distribution across a larger nerve area.
Top Quality Electrodes!

LSI SILVER SELF-ADHESIVE ELECTRODES

Combine foam backing, carbon vinyl, a pure silver layer, specially formulated adhesive and a clear plastic strip that prevents delamination to create the best electrodes available today. The silver electrodes are reusable and are available in both the .08" pin type or with snap connectors.

- Prices are per package.

LXI IFC UNIT LEADWIRES

6” & 10” LEADWIRE
DIN PIN TO .08” PINS

Core Wraps

Excellent for positioning electrodes or traditional hot/cold packs. Plush neoprene helps retain heat or cold. Provides mild compression. Hook-and-loop fastener holds wraps in place. Fully adjustable.

SDP CONVERTER

Use SDP to convert stereo pin port to LSI Din Pin leadwires. Comply with FDA regulations.
The new Durabuilt Contoured Treatment Table is supported by a rigid wooden frame with steel legs. The angled braces and square tubing cross braces make this a very sturdy table. The upholstered foam top and armrests provide durability and comfort. The face paper hardware is very easy to use and can be installed on either side of the table, making it easy to access. 72” L x 24” W x 25” H

LSI MEMORY-SLEEP PILLOW
Our memory foam pillows are designed to help stabilize an existing condition and provide comfort for special sleeping needs. Our 100% viscoelastic foam responds to body heat to better conform to the unique shape of your head and neck. These pillows can be used as part of a three-step process of ensuring good health. Once the existing condition is stabilized, you can move to more resilient pillows that can help reestablish and maintain proper alignment of the spine. This three-step process works to maintain good health by supporting the neck in its proper, most natural position.

Cat# Description 1-5 6-11 12+
CE190 12” x 20” $39.39 $38.35 $37.30

DOUBLE CORE SELECT

New, easily interchangeable, color-coded cores provide a range of cervical support from mild to extra-firm. Two different sized lobes add to this pillow’s versatility. Provides all three of the TriCare stages of care.

Color-coded cores provide a range of support from mild to extra-firm. Choose the support level that’s right for you.

Interlocking section allows you to easily change the support cores.

Two different sized lobes allow you to choose the side most comfortable for you.

Tri-Core fiber pillows are designed specifically with the neck and back in mind. Featuring the trapezoid-shaped center that delivers the same great orthopedic benefits as always, cradling the head and firmly supporting the neck.

D. DIAMOND BACK LUMBOSACRAL SUPPORT
This support has a diamond back pattern which pulls and adjusts to the front. It provides compression throughout the lumbosacral area. The front and side lining help to prevent chafing and absorb perspiration and remain cool and comfortable. The Velcro closure makes this support nearly universal. This is our most popular support!

SOMBRA NATURAL PAIN RELIEVING GEL
A blend of plant extracts, capsaicin, witch hazel and menthol make this a deep heating gel that relieves arthritic pain, muscle soreness, inflammation, and back pain. Sombra is alcohol free and does not contain waxes, oils or artificial colors, and does not stain sheets.

BIOFREEZE®
A blend of plant extracts, capsaicin, witch hazel and menthol make this a deep heating gel that relieves arthritic pain, muscle soreness, inflammation, and back pain. Sombra is alcohol free and does not contain waxes, oils or artificial colors, and does not stain sheets.

THERA-BAND® TUBING RESISTIVE EXERCISER
Six progressive levels of resistance for upper body exercise, rehabilitation and conditioning. 100 feet long.

BURST RESISTANT BODY BALLS
Available in 3 sizes: 55 CM, 65 CM and 75 CM. Burst resistant balls specially formulated for slow deflation if punctured. Includes ball in selected size, wall chart illustrating step-by-step exercise program and a high volume air pump.

THERA-BAND® EXERCISE BALLS
Ruggedly designed inflatable balls that aid in strengthening postural muscles and help prevent back pain. Also can be used to increase range of motion, strength and endurance. Great therapy for people of all ages. Each ball includes a full color poster featuring 24 exercises. Weight tested to hold up to 1000 pounds. The size of the ball should be based on the height of the person.
